The comprehensive care management system of choice

Manage all of your care records in one central location.

AutumnCare covers all of the clinical and care documentation needs of care providers, enabling them to create thorough and accurate records in a fraction of the time taken when using a paper-based system.

AUTUMNCARE FACILITATES:

PERSON-CENTRED RECORD KEEPING:

- » Create unique Care Plans for each care recipient
- » Perform Care Plan reviews
- » Select from a wide range of Forms and Assessments
- » Document Care Notes
- » Perform Interactive Handover at the start of each shift
- » Send tasks and messages
- » Access appointment calendars

REPORTING AND ORGANISATIONAL OVERSIGHT:

- » Access a selection of prebuilt reports
- » Build your own custom reports
- » View the Dashboard for a snapshot of the entire organisation
- » Monitor key indicators remotely
- » Identify and proactively manage risks
- » Enhance transparency across the care service
- » Gain greater insight into all data entered into the system

Medicate

AutumnCare Medicate promotes safe, efficient and effective medication management, administration and reporting for care providers.

FEATURES

- » Administer Medications
- » Manage Incidents
- » Evaluate PRN Effectiveness
- » Report on Medications
- » Manage Psychotropics

MANAGEMENT

Staff are able to manage medications whilst referencing each care recipients medical history, including diagnosis, allergies, special considerations and prescriptions.

ADMINISTRATION

Embedded prompts and alerts guide staff through customisable medication rounds whilst eliminating instances of missed medications and signature omissions.

REPORTING

Detailed reports can be created in a matter of minutes, reducing the time taken to manually compile audits and reports on medication management and administration.

Family

AutumnCare Family is an app designed to streamline family engagement. Care providers are able to communicate directly with family members, keeping them connected wherever they may be.

FEATURES

- » Sharing of Case Notes
- » Electronic care plan signing
- » Secure two-way messaging
- » Updates on medications
- » Sharing of photographs

CARE

Keep families up to date between visits by sharing relevant care information. Families can even sign and return care plan reviews when unable to attend in person.

LEISURE

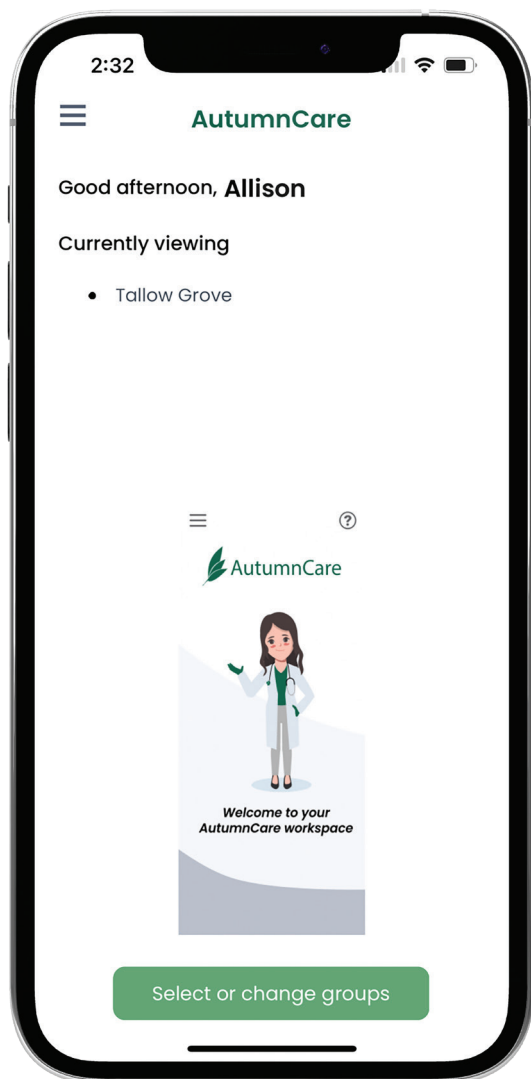

Let them in on the fun! Share photos of care recipients enjoying group events and leisure activities with family members.

OUTINGS

Make arrangements with families when collecting their loved ones for appointments or trips out. Remind family to bring a new pair of socks or PJs during their next visit.

Mobile

AutumnCare Mobile is a lightweight app for data entry at the point of care. Designed to replicate a carers workflow, the app facilitates more thorough, accurate record-keeping on the go, without detracting from face-to-face time with care recipients.

FEATURES

- » Daily Notes
- » Charting
- » Messages & Tasks
- » Care Planning
- » Assessments

SIMPLE

An icon-based interface makes this app intuitive to use with little to no training. Access and complete all of your daily tasks in a fraction of the time, providing you with more time to care.

SMART

AutumnCare Mobile is clinically comprehensive without being complicated. We provide an extensive range of charts and assessments to ensure all care planning eventualities are covered.

SECURE

Data shared via the app is kept secure via encryption, password protection and access permissions. This ensures you maintain control of who can access the system at all times.

eLearning

Effective, accessible education designed for all AutumnCare users. Ongoing staff education from a convenient, accessible platform ensures that staff are able to maximise their use of AutumnCare.

The AutumnCare LMS allows users to progress through tutorials and assessments at their own pace.

Download training modules from our Support site or access them on our Learning Management System via any web browser.

Tutorials are available for all of the basic through to advanced functions available within AutumnCare.

This is the perfect tool for beginner users that have just picked up AutumnCare for the very first time, through to experienced users looking for a refresher on basic data entry through to customisation.

Training packages are available to cover AutumnCare Desktop as well as AutumnCare Medicate.

AutumnCare eLearning provides totally comprehensive, yet flexible training:

- » Complete modules at any time
- » Access in several ways depending on your preference
- » Staff gain a certificate to verify competency upon successful completion of each course
- » New training content is provided alongside each AutumnCare software update

Some of the things eLearning modules cover include:

- » Creating and customising Care Plans
- » Creating reports
- » Documenting activity attendance and participation
- » Administering medications
- » Reviewing missed medications
- » Configuring medications

WHY CHOOSE THE LMS?

- » More thorough and effective documentation
- » User confidence in navigating the system
- » Usage of all functionality the system has to offer

Cloud Hosting

All the benefits of a clinical management software system fully maintained by AutumnCare.

AutumnCare's cloud hosted solution allows Aged Care providers to enjoy all of the rich functionality of a clinical management system without the distraction of software upkeep.

When you choose our cloud hosted solution, AutumnCare fully manages and maintains your system. This means that comprehensive IT infrastructure and in-house IT specialists are not required. This leaves your staff free to focus on delivery and documentation of care.

AutumnCare in the cloud means less valuable time is spent on software maintenance, and a dedicated Technical Support team is ready and able to assist you as required.

COMPREHENSIVE SECURITY

AutumnCare stores your clinical data security off site when you select our cloud hosted model.

Your clinical data can be restored from previous backups in the event of network failure or natural disaster, ensuring that your data remains protected even in the event of devices being damaged or destroyed.

ACCESS TO DEDICATED SUPPORT STAFF

Our Technical Supported team are dedicated to the prompt response to your queries, as a cloud user you have access to this team between 8.00am – 7.30pm AEST weekdays.

This means less time spent on troubleshooting and a system that is available whenever you need it.

AUTUMNCARE PERFORMS THE FOLLOWING:

- » Software monitoring
- » Software maintenance
- » Software upgrades
- » Data storage
- » Nightly database backups
- » Data encryption
